Re: Town of Woodstock Drinking Water Source Protection Program (DWSP2)

Dear Town Supervisor Anula Courtis

Congratulations! The New York State Department of Environmental Conservation (DEC) and Department of Health (DOH) have reviewed the Town of Woodstock Drinking Water Source Protection Program plan completed October 2026, with technical assistance from DOH and accept the plan, effective October 2, 2026.

The plan was reviewed and accepted for its technical merits and for its completeness with respect to the *Framework for Creating a Drinking Water Source Protection Program Plan*. We encourage communities to implement, maintain, and where possible, improve upon this plan as part of their ongoing source water protection vigilance.

If your community has any questions about the Drinking Water Source Protection Program, you can contact us at: source.water@dec.ny.gov. Additionally, please visit the [DWSP2 website](#), where you can find newsletters and program resources that provide readers with current program information, potential funding sources, and more.
