Town of Woodstock
Watercourse Buffer Map
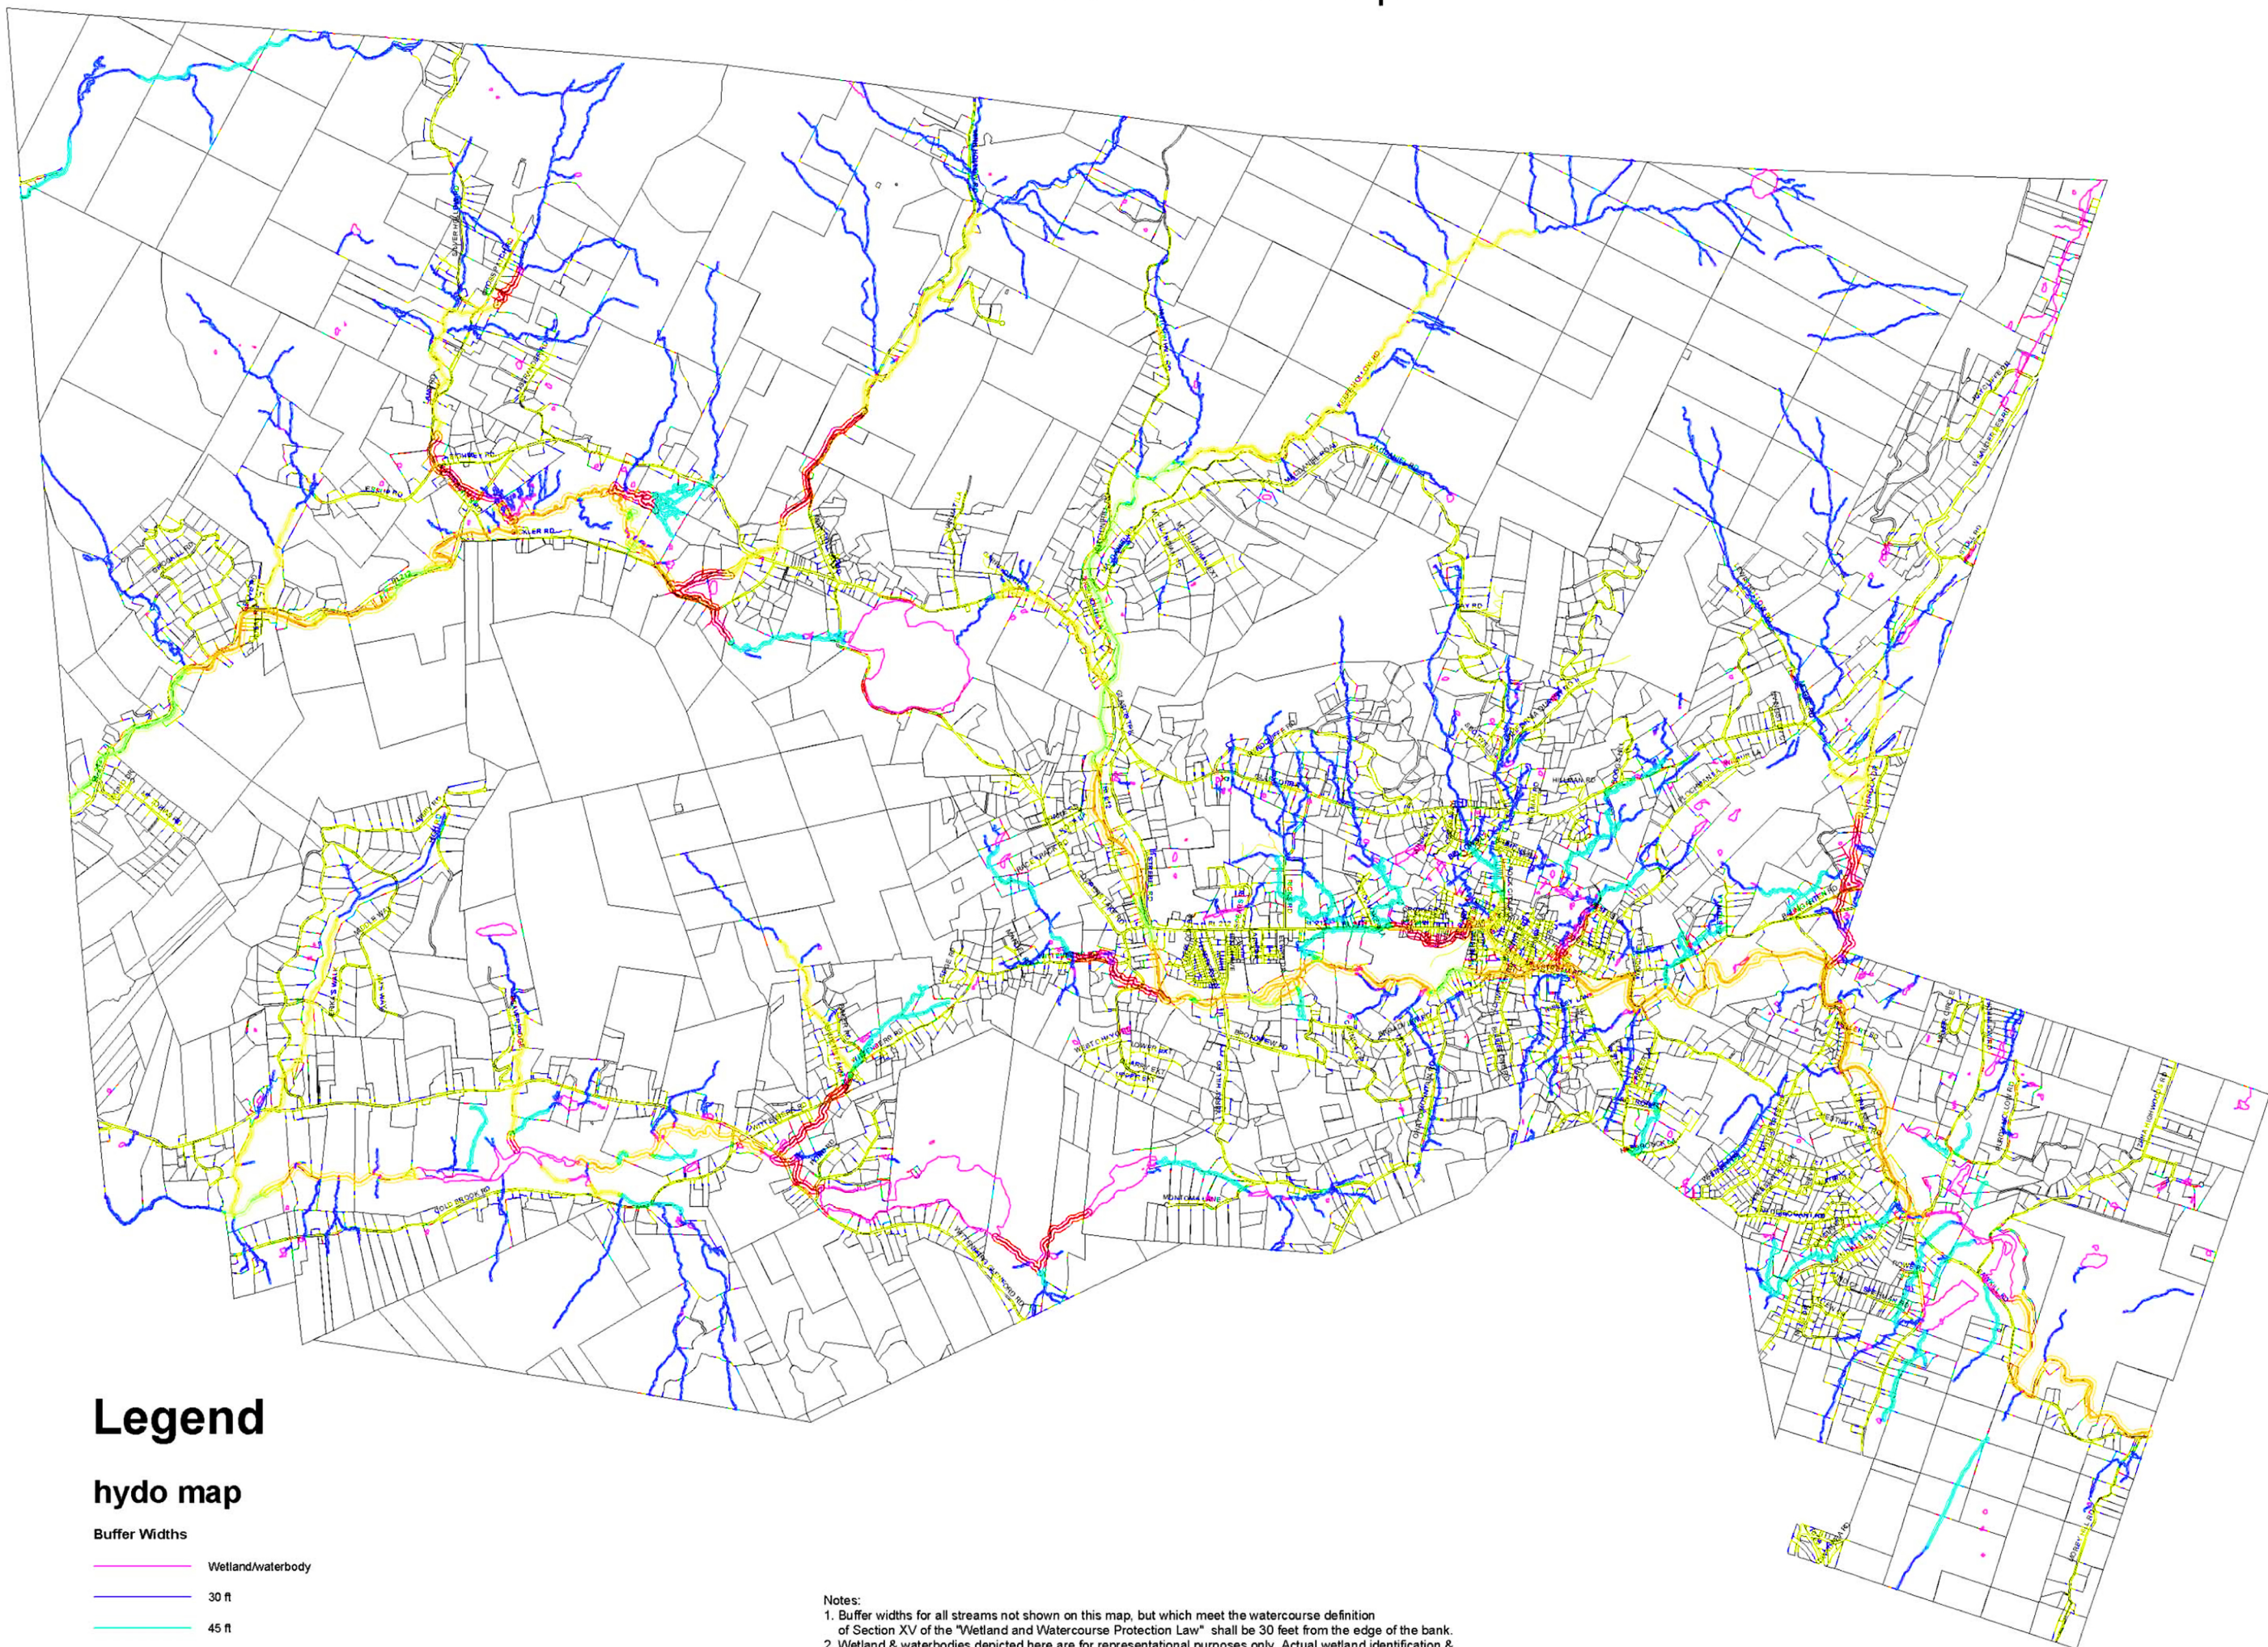

Legend

hydo map

Buffer Widths

— Wetland/waterbody
— 30 ft
— 45 ft
— 60 ft
— 75 ft
— 90 ft
— 100 ft
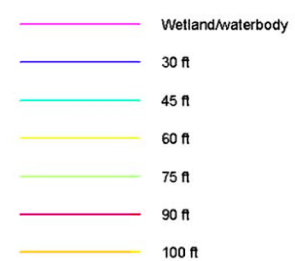

Notes:
1. Buffer widths for all streams not shown on this map, but which meet the watercourse definition
   of Section XV of the "Wetland and Watercourse Protection Law" shall be 30 feet from the edge of the bank.
2. Wetland & waterbodies depicted here are for representational purposes only. Actual wetland identification &
   & delineation to be determined in field.
3. Watercourse buffers are subject to, and dependent, on in-the-field verification of teh "edge of bank."
4. For a large scale map of one or more specific properties see the GIS Coordinator
